

Puts you in control

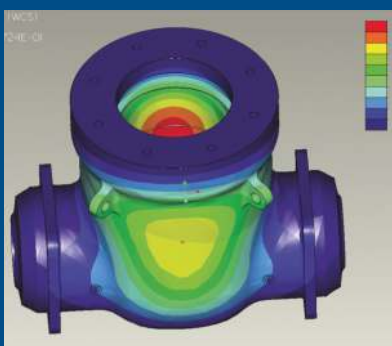

L&T Valves Limited (formerly Audco India Limited) is a wholly owned subsidiary of Larsen & Toubro Limited. Leveraging a five-decade heritage of excellence, we provide unmatched value to power plants worldwide.

The product range covers the entire gamut of power plant applications - gate, globe & check valves in ASME classes up to 4500, customized solutions, large-size butterfly valves and control valves.

The valves are designed using state-of-the-art 3D design, simulation and analysis software. Finite Element Analysis (FEA) and Computational Fluid Dynamics (CFD) are used to fine-tune product performance. Rigorous prototype tests - both in-house and at advanced flow control research establishments - ensure that the customized solutions meet customer expectations.

Our advanced project management capability ensures that the product deliveries match your project schedules. We also offer asset management support for the entire life cycle of the products.

Valves for Power Plants

Gate, Globe & Check Valves

Pressure-Seal Range

3" - 42", #600-4100

Carbon Steel, Stainless Steel and Alloy Steels in cast and forged materials such as C12A and F91

Bolted-Bonnet Range

2" - 42", #150-600

Carbon Steel, Stainless Steel and Alloy Steels

Forged Steel Range

½" - 6", #800-4500

Customised Solutions

We also offer customised solutions such as Bellow-seal Valves, Reheater Isolating Device, Angle Globe and Quick Closing Non-return Valves

Large-size Butterfly Valves

PN 6, 10 and 16, sizes up to 120"

Control Valves

Globe and Butterfly Control Valves

#150 to 2500

General Service & Severe Service

Low-flow Applications
