

Valve Service Centre
Monitor | Maintain | Maximise

L&T Valves is a leader in engineered flow control solutions for oil & gas, power and process industries. The company also manufactures customised valves for defence, nuclear and aerospace industries.

L&T Valves, a pioneer in innovations that enhance customer satisfaction, has launched the valve industry's first Service Centre at Jamnagar, Gujarat.

The Valve Service Centre offers a variety of services that enhance the life and reliability of valves as well as reduce the total cost of ownership. The modern facility is manned by experienced factory-trained personnel.

The Centre provides commissioning support, preventive maintenance as well as emergency management services. The Centre helps the customers to monitor and maintain valve performance and to maximise productivity and value.

Services Offered:

- Valve Diagnostics and Evaluation
- Maintenance, Reconditioning, Modifications, Retrofitting
- Upgradation, Trim Change
- Hydrotesting, Fugitive Emission Tests
- Assembly and Testing for Oxygen Service Valves
- Valve Automation
- Certification by L&T Valves Quality Engineer
- Spares
- Hands-on Training
- Protective Packing

The L&T Valves Advantage:

- The Centre follows L&T Valves Quality Procedures built on 55 years' expertise
- Trained Manpower
- Well-equipped facility set up by L&T Valves Plant Engineering team
- Customised tools, tackles, jigs and fixtures
- Genuine L&T Valves spares
- High Throughput – 25 valves can be tested in an eight hour shift
- Facility to provide training to customers on valve maintenance
- Designed to handle various types of valves

Gate, Globe & Check Valves

- Sizes up to 24"
- Classes 150 to 600

Ball Valves

- Sizes up to 24"
- Classes 150 to 600

Butterfly Valves

- Sizes up to 36"
- Classes 150 & 300

In-house Facilities:

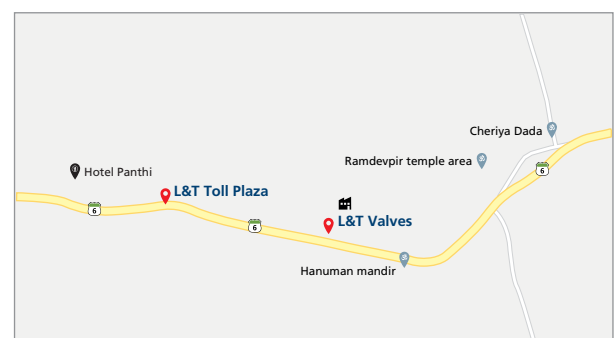

- Lathes including Vertical Turret Lathes
- Radial Drilling Machines
- Lapping Machines
- Welding Machines
- Non-compression Test Stands
- Corrosion Protection/ Surface Protection
- Handling and Storage Facilities

Special Facilities:

- 10K Clean Room for assembling and testing valves for Oxygen service
- Fugitive Emission Test Facility

Address:

L&T Valves Service Centre

L&T Product Range

Gate, Globe & Check Valves

Pressure-seal & Bolted-Bonnet

#150 to 4500, Up to 72" (1800 mm)
Cast & Forged Steel - CS, SS & Alloy Steels

API 624-compliant
Low Emission Valves

API monogrammed.
SIL 3 Capable (Gate Valves)

Ball Valves

Trunnion-mounted, #150 to 2500, Up to 56" (1400 mm)

Cast & Forged Steel - CS, SS & Alloy Steels

Side-entry and Top-entry Designs

Soft-seated and Metal-seated

API monogrammed, SIL 3 Capable

Floating Ball Valves, #150 to 2500, CS & SS

Single, Two and Three-piece Designs

Soft-seated and Metal-seated

Butterfly Valves

Triple-offset, #150 to 1500, Up to 100" (2500 mm)

CS, SS & Alloy Steels

API monogrammed, SIL 3 Capable

Wafer, Lugged & Flanged

Pressure rating up to PN25

CI, SG Iron, CS & SS Body

Integrally-moulded Seat

Double-Block-and-Bleed Plug Valves

#150 to 600, Up to 42" (1050 mm)

CS, SS & Alloy Steels

API Monogrammed

Control & Automation Solutions

Control Valves - Globe & Butterfly

SIL 3 Capable Automation Solutions including
High Integrity Pressure Protection System (HIPPS)
